Disappeared and Was Believed Have Gone to France-Story of Mrs. Kenny.

NEW YORK, November 23 .- At the time of the disappearance of Albert C. Callier, the artist, whose body, the police say, was found packed in a trunk in the basement of a house last week, he had between \$10,000 and \$12,000, it was learned today.

The police have been informed also that Callier and William Lewis, his friend, in whose trunk the body was found, were attentive to the same woman, An intimate friend of Callier said that in June, 1902, the artist told him his brother had just sent him a ticket for Paris and between \$10,000 and \$12,000. Callier, he said, did not return to France,

but dropped out of sight. Soon after that time Bono Callier, his brother, with whom he had associated in an ivory company in Sierra Leone, on the west coast of Africa, came to New York. The African merchant laid the case before the French consul in New York and a search was instituted. So far as known, Albert C. Callier has never been accounted for since that time.

Artist Knew Missing Man.

One man has been found in New York who knows much of the story of Callier and of his doings during the three years that he lived in New York. This man, himself an artist of some note and a fellow-countryman of the missing Frenchman, was the one to whom Callier showed his ticket to France and the large sum of money which he had received from Sierra Leone, and to whom he announced

"Callier went out to enter his brother's company some time about 1896 or '97. He was there a little less than three years, during which time he says that he had many adventures in the bush. "In the end his health failed him and he went back to France. Subsequently he came to America. That was in 1809.
